Subject: Building Energy Use Disclosure and Public Benchmarking Program Mandated under Assembly Bill 802, Docket: 15-OIR-05

Please consider these remarks from a small, woman owned business that has been severely affected by the decision to eliminate AB 1103.

I have laid off my entire staff of four full-time and two part-time Green Job employees. We produced enough reports in a given month, that this cash flow is significantly impactful.

Just want everyone to understand there is a definite economic impact to eliminating this law.

For the new law to be effective, it must have enforcement mechanisms. I hope the CEC makes this a mandatory component of AB 802, otherwise, why bother?

Happy New Year!

Marika
