Background and Purpose

Assembly Bill 802 revises Public Resources Code Section 25402.10 to require utilities to provide energy consumption data for covered buildings to the owners, owner's agents, or operators of those buildings upon request, and further requires the Energy Commission to establish a benchmarking and public disclosure program for certain buildings. AB 802 was signed into law by Governor Edmund G. Brown Jr. on October 8, 2015, and went into effect on

January 1, 2016. It repealed the Nonresidential Building Energy Use Disclosure Program implemented by the Energy Commission pursuant to Assembly Bill 1103 (Saldana, Chapter 533, Statutes of 2007).

Regulation development for building energy use data access, benchmarking, and public disclosure is currently in the “pre-rulemaking” phase. As needed, pre-rulemaking workshops are held by the Energy Commission to seek early public input for developing and refining draft regulations. The “rulemaking phase” (45-day language) commences with the publication of a Notice of Proposed Regulatory Action and proposed regulations. Once adopted by the Energy Commission, the regulations will be submitted to the Office of Administrative Law for review. More information about the California state government rulemaking process can be found at: http://www.oal.ca.gov/regular_Rulemaking_Process.htm.

Previous Pre-rulemaking workshops

On November 10, 2015, the Energy Commission staff conducted a Scoping Workshop to provide an overview of the benchmarking provisions of AB 802, explain the implications for the AB 1103 program, and facilitate a discussion regarding the scope of regulations for the benchmarking provisions of AB 802.

On March 25, 2016, the Energy Commission staff presented an initial proposal to seek early stakeholder input for the development of the draft regulations. Stakeholder comments were reviewed and used to inform the development of the draft regulations.

Staff presentation, webex recording, transcript and submitted comments for these workshops can be found at: <http://energy.ca.gov/benchmarking/documents/>.

Agenda

On July 22, 2016, staff will present proposed changes to Section 1680 *et seq.* of the California Code of Regulations, Title 20, which would implement the Building Energy Use Data Access and Public Disclosure Provisions of AB 802. To further inform the regulations, several discussion and comment opportunities will be given during the workshop. Stakeholders are encouraged to provide comments in person and in writing as instructed in the next section of this notice. Staff plans to post the draft regulations prior to the workshop.

Public Comment

Oral comments: Staff will accept oral comments during the workshop. Comments may be limited to three minutes per speaker. Comments will become part of the public record for this proceeding.

Written comments. The comment period for this workshop ends at 5:00 p.m. on Friday, August 5, 2016. Written comments will also be accepted at the workshop; however, the Energy Commission may not have time to review them before the conclusion of the meeting. For additional information, see Standing Order re: Proceedings and Confidentiality Procedural Requirements for Filing, Service, and Docketing Documents with the Energy Commission, available at: http://www.energy.ca.gov/commission/chief_counsel/docket.html.

Additionally, written comments may be posted to the Energy Commission’s website for the proceeding. Please note that your written and oral comments, attachments, and associated
