<i>Initiative 2.0</i>)	Renewable Energy Transmission
_____)	Initiative 2.0

Notice of Renewable Energy Transmission Initiative 2.0 Plenary Group Meeting

Staff of the California Natural Resources Agency, California Energy Commission, California Public Utilities Commission, and California Independent System Operator will host a meeting of the Renewable Energy Transmission Initiative (RETI) 2.0 Plenary Group. The purpose of this meeting is to review the availability of renewable resources in California and elsewhere in the West that could help meet California's long-term greenhouse gas reduction and energy goals and seek stakeholder feedback.

One or more Commissioners from the California Energy Commission and/or the California Public Utilities Commission may attend and participate in the meeting.

The Plenary meeting will be held:

Wednesday, March 16, 2016
10:00 a.m.

CALIFORNIA ENERGY COMMISSION
1516 Ninth Street
Art Rosenfeld Hearing Room, First Floor
Sacramento, California
Wheelchair Accessible

Remote Access Available by Computer or Phone via WebEx™
(Instructions below)

Background

On October 7, 2015, Governor Brown signed the Clean Energy and Pollution Reduction Act of 2015 (De León, Chapter 547, Statutes of 2015), which requires electric utilities to

prepare long-term plans to meet greenhouse gas (GHG) goals, establishes targets to increase retail sales of qualified renewable electricity to at least 50 percent by 2030 and reduce GHG emissions by 40 percent from 1990 levels by 2030, and outlines a process for the regional expansion of the California Independent System Operator (California ISO). In addition, in August 2015, the federal Clean Power Plan was finalized, requiring every state to significantly reduce electricity-sector GHG emissions. Developing the transmission needed to support increasing amounts of renewable resources will be critical to meeting these goals and will require careful planning and coordination across the West.

In September 2015, the California Natural Resources Agency (CNRA), California Energy Commission (Energy Commission), California Public Utilities Commission (CPUC), California ISO, and the U.S. Bureau of Land Management California Office initiated the Renewable Energy Transmission Initiative (RETI 2.0) to facilitate the long-range planning, inter-agency coordination, and stakeholder engagement necessary to reach these goals with the lowest costs and greatest benefits. RETI 2.0 is a proactive, statewide, non-regulatory planning forum intended to identify the constraints and opportunities for new transmission to access and integrate new renewable resources and help meet the state's long-term GHG and renewable energy goals.

Specifically, RETI 2.0 will:

- Explore renewable generation resources in California and throughout the West that can help meet California's long-term energy and GHG reduction goals.
- Identify land use and environmental opportunities and constraints to accessing these resources.
- Build understanding of transmission options for accessing and integrating renewable resources, and support for "least regrets" transmission investments.
- Inform future planning and regulatory proceedings.

On March 16, the RETI 2.0 Plenary Group will hold a public meeting to review the existing information and recent studies regarding the energy and integration value of various renewable energy technologies in specific geographic areas, as well as studies and conclusions regarding the value these resources may provide in an overall portfolio of resources that could meet California energy and GHG goals in 2030 and beyond. The objective of this meeting is to suggest the renewable resources and geographic areas that may be of most net value to meeting these long-term goals. The RETI 2.0 process will then focus, in coming months, on evaluating the transmission implications and options to link these high-value resource areas.

Meeting Agenda

A specific agenda will be posted prior to the meeting. Topics on the agenda may include, but are not limited to:

- How resource values and costs are understood in policy proceedings at the CPUC and Energy Commission; and insights regarding high-value resources in a long-term portfolio context.
- How resource values and costs are considered by investor-owned and public utilities in long-term planning; and insights regarding renewable resources of particular interests to utility planners.
- Lessons from studies and models of long-term resource portfolio optimization regarding the types of resources that may be of most value in 2030 and beyond.
- Presentations from resource advocates and developers on recent advances in their technology or area.

Public Comment

Oral comments: The Plenary Group will accept oral comments during the meeting. Comments may be limited to three minutes and will become part of the public record for this stakeholder process.

Written comments should be submitted by 4:00 p.m. on March 30, 2016. Please submit comments to the Energy Commission using the Energy Commission's e-commenting feature by going to the RETI 2.0 webpage <http://www.energy.ca.gov/reTI/> and click on the "Submit eComment" link. A full name, e-mail address, comment title, and either a comment or an attached document (.doc, .docx, or .pdf format) is mandatory. After a challenge-response test used by the system to ensure that responses are generated by a human user and not a computer, click on the "Agree & Submit Your Comment" button to submit the comment to the Energy Commission Dockets Unit.

Please note that written comments, attachments, and associated contact information included within the written comments and attachments (e.g., your address, phone, email, etc.) become part of the viewable public record.

You are encouraged to use the electronic commenting system, described above, to submit comments. If you are unable to submit comments electronically, a paper copy of your comments may be sent to:

Dockets Unit
California Energy Commission
Docket No. 15-RETI-02
1516 Ninth Street, MS-4
Sacramento, CA 95814-5512

Or e-mail them to: DOCKET@energy.ca.gov

If you choose not to use the electronic filing system, please include the Docket Number 15-RETI-02 on any e-mailed or written comments. Written comments will also be accepted at the meeting. However, the agencies may not have time to review them before the conclusion of the meeting.

Public Adviser and Other Commission Contacts

The Energy Commission Public Adviser's Office provides the public assistance in participating in Energy Commission proceedings. If you want information on how to participate in this forum, please contact the Public Adviser, Alana Mathews, by e-mail at PublicAdviser@energy.ca.gov or (916) 654-4489 (toll free at (800) 822-6228).

If you have a disability and require assistance to participate, please contact Lou Quiroz by e-mail at Lou.Quiroz@energy.ca.gov or (916) 654-5146 at least five days in advance of the meeting.

Media inquiries should be sent to the Media and Public Communications Office by e-mail at mediaoffice@energy.ca.gov or (916) 654-4989.

If you have questions on the subject matter of this meeting, please contact Al Alvarado by e-mail at Al.Alvarado@energy.ca.gov or (916) 654-4749.

The service list for the stakeholder process is handled electronically. Notices and documents for this proceeding are posted to the Energy Commission website. When new information is posted, an e-mail will be sent to those on the RETI e-mail list server. We encourage those who are interested in receiving these notices to sign up for the list server through the website at www.energy.ca.gov/listservers/.

Remote Attendance

You may participate in this meeting through WebEx, the Energy Commission's online meeting service. Presentations will be webcast, and you may listen to audio via your computer or telephone. Please be aware that the meeting may be recorded.

To join a meeting:

VIA COMPUTER: Go to <https://energy.webex.com> and enter the unique meeting number: **924 868 495**. When prompted, enter your name and the meeting password: **meeting!123**

The "Join Conference" menu will offer you a choice of audio connections:

1. To call into the meeting: Select "I will call in" and follow the on-screen directions.
2. International Attendees: Click on the "Global call-in number" link.
3. To have WebEx call you: Enter your phone number and click "Call Me."
4. To listen via the computer: If you have a broadband connection, and a headset or a computer microphone and speakers, go to the Audio menu, click on "Use Computer Headset," then "Call Using Computer."

VIA TELEPHONE ONLY (no visual presentation): Call (866) 469-3239 (toll-free in the U.S. and Canada). When prompted, enter the meeting number **924 868 495**.

International callers may select their number from <https://energy.webex.com/energy/globalcallin.php>.

VIA MOBILE ACCESS: Access to WebEx meetings is now available from your mobile device. To download an app, go to www.webex.com/overview/mobile-meetings.html.

If you have difficulty joining the meeting, please call the WebEx Technical Support number at (866) 229-3239.

Availability of Documents

Documents and presentations for this meeting will be available online at: <http://www.energy.ca.gov/reti/>

DATE: March 4, 2016

List Serve: RETI
