Re: Carlsbad Energy Center Project (07-AFC-06C)
Use of Ocean Water Purification

Dear Mr. Monasmith:

The Project Owner, Carlsbad Energy Center LLC, for the Carlsbad Energy Center Project ("CECP") (07-AFC-06C), hereby provides confirmation that the Amended CECP being evaluated by California Energy Commission Staff is not intended to use purified ocean water as a water source. The Petition to Amend filed by Project Owner was not clear on this point. The design and intent for the Amended CECP is to use reclaimed water as the primary source and potable as a backup water source.

Please contact me if you have questions.

Locke Lord LLP
