Carlsbad Energy Center Project Amendment

DOCKET NO: 07-AFC-6C

October Status Report

Power of Vision participated in the recent public workshop on the proposed amendment to the Carlsbad Energy Center Project. We suggested changes to the current configuration of the transmission lines to mitigate their view impacts to the residents of Carlsbad as well as travelers on the I-5 corridor. Power of Vision will continue to press the applicant and CEC staff of the necessity of mitigating the unsightly nature of six peaker power plants and related transmission lines to coastal Carlsbad.
