## **SHUT IT DOWN**

This facility, which has been proven unsafe AND unnecessary, must NOT be allowed to resume gas storage operations. Common sense and recent events demonstrate that the location of such an operation in an Eartquake prone, Fire Zone, in such close proximity to so many homes and businesses is UNACCEPTABLE! No amount of testing can prove, beyond the shadow of a doubt, that another BLOWOUT will not occur. It must forever, be SHUT DOWN! Thank you!
