another day depending on the agenda items for the specific meeting. Prior to each status conference, the meeting agenda will be posted to the Carlsbad Docket at: <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=07-AFC-06C>

TELECONFERENCE OPTION: Parties and the Public may attend the meetings in person at the above location or by telephone and/or by computer via our “WebEx” web conferencing system. For details on how to participate by WebEx, please see the “Participation through WebEx” directions attached to this Notice.

Background

The CECP was approved by the Energy Commission on May 31, 2012, as a 540-megawatt (MW) natural-gas combined-cycle power generator. It would consist of two power blocks, each having one rapid-response combustion turbine generator (CTG), one heat recovery steam generator (HRSG), one condensing steam turbine generator (STG), an air-cooled fin-fan cooler, and associated support equipment.

Two amendment petitions are pending. The first (Petition to Remove Obsolete Facilities to Support Construction of the Carlsbad Energy Center Project, TN 202267), seeks permission to demolish three above-ground storage tanks - tanks 1 and 2 to the west of the rail corridor, and tank 4 to the south of the approved project boundary. Those tanks would be demolished in addition to tanks 5 – 7 on the approved project site; tanks 5 – 7 were approved for demolition in the 2012 Commission Decision. The second petition (Petition to Amend Carlsbad Energy Center Project, TNs 202287-1, 202287-2, and 202287-3) would change the project to consist of six simple-cycle turbine generators producing approximately 632 MW. The project site would be expanded to include the storage tank (tank 4) area to the south of the presently approved area, adding seven acres to the approved 23 acre facility. A new administration and control building and a warehouse would be added on the site.

The Committee ordered on September 23, 2014 that both amendments will be considered and processed together (TN 203092).

The engineering and environmental details of the proposed amendments may be viewed at: <http://www.energy.ca.gov/sitingcases/carlsbad/>.

Purpose of the Status Conferences

The Committee will conduct the status conferences to discuss the progress made in the proceeding, any barriers to the timely completion of Staff’s analysis, date-specific project milestones, and any other matters relevant to the schedule. They may also address any then-pending motions, petitions, and other requests that are ripe for consideration.

As allowed by Title 20, California Code of Regulations Section 1208, the Conferences may be conducted by the Hearing Adviser without either Commissioner being present.

Closed Sessions

The Committee may, pursuant to Government Code section 11126, temporarily adjourn to a closed session to deliberate on matters before the Committee for decision such as the preparation of its decisions or motions and other matters then pending before the Committee.

Public Adviser and Public Participation

The Energy Commission invites members of the public and other interested parties to participate either on an informal basis or by intervening in the proceeding. Both types of participation allow written and oral comments. At the informal participation level, written and oral public comments are considered by the Commissioners and are part of the record, but are not part of the formal evidentiary record. Intervenors have the right to introduce evidence into the evidentiary record and cross-examine the other parties' witnesses.

The Energy Commission's Public Adviser's Office is available to provide the public with an understanding of the proceedings and to make recommendations for meaningful participation. For assistance, contact Alana Mathews, Public Adviser, at (916) 654-4489 or 800-822-6228, or by e-mail at: publicadviser@energy.ca.gov.

If you have a disability and need assistance to participate in this event, contact Lourdes Quiroz no less than five days prior to the hearing at (916) 654-5146 or by e-mail at: lou.quiroz@energy.ca.gov.
