PURPOSE

The purpose of this workshop is to provide industry, stakeholders, and the public an opportunity to respond to and discuss staff's request to gather information on innovative water conservation and water loss detection and control technologies as part of the Governor's Executive Order B-37-16.

BACKGROUND

Executive Order B-37-16 requires state agencies to update temporary emergency water restrictions and transition to permanent, long-term improvement in water use by taking a number of specific actions. In particular, the Executive Order directs the Energy Commission to certify innovative water conservation and water loss detection and control technologies that also increase energy efficiency.

The purpose of this informational proceeding is to obtain information from interested stakeholders on the role of the Energy Commission in implementing Executive Order B-37-16, including the requirement that the Energy Commission certify innovative water conservation and water loss detection and control technologies that also increase energy efficiency. It is anticipated that this proceeding will cover, at a minimum, the topics described above, and may result in recommendations for the Commission to consider in a future rulemaking.

PUBLIC COMMENT PERIOD/WRITTEN COMMENTS

Oral comments: Oral comments will be accepted during the workshop. Comments may be limited to five minutes per speaker. Any comments will become part of the public record in this proceeding.

Written comments should be submitted by 5:00 p.m. on October 28, 2016. If you wish to provide comments, please submit comments to the Energy Commission using the Commission's e-commenting feature by going to the Commission's 2016 Informational Proceeding webpage <http://energy.ca.gov/appliances/2016-OII-01/> and clicking on the "Submit e-comment" link. A full name, email address, comment title, and either a comment or an attached document (.doc, .docx, or .pdf format) is mandatory. After a challenge-response test used by the system to ensure that responses are generated by a human user and not a computer, click on the "Agree & Submit Your Comment" button to submit the comment to the Commission Dockets Unit.

Please note that written comments, attachments, and associated contact information included within the written comments and attachments, (e.g., your address, phone, email, etc.) become part of the viewable public record.

You are encouraged to use the electronic filing system, described above, to submit comments. If you are unable to submit electronically, a paper copy of your comments may be sent to:
