VALOR WATER

A N A L Y T I C S

*Meter-Data Analytics for
Water Utilities*

October 11, 2016

About Valor Water

- ✓ Focused exclusively on water utilities
- ✓ Under continual development since 2007
- ✓ Field tested, nine successful deployments
- ✓ Rooted in economic analysis
- ✓ Award winning
- ✓ Nationally recognized in water utility revenue management
- ✓ Certified Woman-owned Business

Valor Water Analytics is the...
IMAGINE | H₂O
Infrastructure Challenge
Early Stage Track

Valor Customers

“ The analysis gave us a better understanding of [our system]. It was eye opening to see...the creative approach and variety of data presentation formats makes the report easy to interpret whether you're a data junkie or not. –GM, CCWA

Hidden Revenue Locator

PROBLEM

- ✓ Apparent losses are a real problem for utilities
- ✓ On average, about 3-5% of water is unaccounted for
- ✓ Approximately 2.3% of meters are impacted
- ✓ 0.5 to 5% of top-line revenue is typically lost

VALOR WATER ANALYTICS' SOLUTION

- ✓ Provides real-time reporting through analytics
- ✓ Uses your meter data to find apparent losses in system
- ✓ Locates metering inaccuracies, leaks, data handling errors and unauthorized consumption
- ✓ Provides actionable recommendations
- ✓ Empowers revenue recovery and increased efficiency

Hidden Revenue Sample Algorithm

- ✓ Detects pattern of under-registration even with short-term variability in water consumption
- ✓ Accounts for weather, ensures drops in consumption are actually due to under-registration
- ✓ Able to detect dramatic drops in consumption
- ✓ Utilizes machine learning for continued learning within algorithms
