Re: **Carlsbad Energy Center Project, 07-AFC-06C**
Revised Responses to POV Data Request 5

Dear Dr. Roe:

On August, 13 2014, Power of Vision ("POV"), intervenor in the Petition to Amend ("PTA") proceeding for the Carlsbad Energy Center Project ("CECP"), filed Data Request Set 1. Data Request Set 1 contained Data Request POV-5 that asked Carlsbad Energy Center LLC, CECP, ("Project Owner"), to provide renderings showing the view of the project by a north and southbound driver on the I-5 freeway. The Project Owner responded on September 12, 2014 with Figures DR POV 5-2 and DR POV 5-3.

At the CECP Committee status conference on December 3, 2014, during the discussion regarding other data requests by POV, you pointed out that one item you would like to be provided was updates to the above two mentioned figures to reflect the enhancement agreed to by Project Owner to move two of the gen-tie transmission poles west and to a lower elevation. Your request brought to Project Owner's attention that those figures could readily be updated because the electronic model had been developed for the moved gen-tie poles when Project Owner prepared the revised Key Observation Points.

Enclosed with this letter, please find revised Figures DR POV 5-2 Revised and DR POV 5-3 Revised showing the moved gen-tie transmission poles.
