A motion. Keep in mind the admonitions in the General Orders that "motion" should appear in the caption, clearly state the relief you request, etc.

If you file soon, it could be heard at the January status conference.

what is the appropriate document that Terramar needs to submit in order to request a reasonable delay of the PSA workshop. In the schedule the PDOC was to be published in November and wasn't available to Intervenors until December 12, three days before the PSA was published.

With Intervenors being presented with both documents just days before the holidays is a huge expectation for us to absorb and prepare for the PSA Workshop.

I look forward to your response.
