**BEFORE THE CALIFORNIA ENERGY COMMISSION
OF THE STATE OF CALIFORNIA**

Petition to Amend
The Carlsbad Energy Center

Docket Number 07-AFC-06C

Robert Sarvey January 30, 2015 Status Report

I continue to examine the PDOC issued on December 13, 2014. I have received over 1,000 pages of correspondence from the Air District from a public records request filed on December 18, 2014. The information was not received until January 15. Most of my issues are with the air permit which could be resolved in the FDOC. After a brief review of the PSA I have disagreements with the Staff analysis in the areas of Alternatives and GHG emissions and Public Health. After release of the FSA, the FDOC, and the Coastal Commission comments I will be ready to move to hearings.

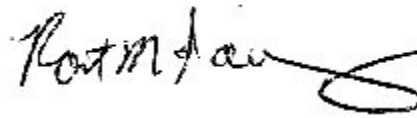

I have an issue with the compliance and closure plan. I believe that the applicant should be required to set aside several million dollars a year to demolish the amended CECP after it reaches the end of its useful life. The City of Carlsbad should not be extorted again like they have been with the Encina Power Plant to host another power plant after the useful life of the amended CECP is over.

Currently I expect that I will need the hearing time listed below for examination of the following witnesses:

Alternatives	David Vidaver	1 hour	Combined Cycle/Preferred Resources
Air Quality	Steve Moore	1 hour	BACT, PSD, Major Source, NO2
Air Quality	Will Walters	1 hour	BACT
Air Quality	Applicant	1 hour	
GHG	Will Walters/ Vidaver	1 hour	Preferred Resources, GHG mitigation
Public Health	Alvin Greenberg	½ hour	Cumulative TAC emissions

Once I have reviewed the FSA, the FDOC and the Coastal Commission Report I will have a better idea of what other witnesses I will need to cross-examine. I request that the Committee discuss the compliance and closure issue and the set aside for funds for demolition of the amended CECP at the February 4th status conference.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Robert Sarvey", with a long, sweeping flourish extending to the right.

Robert Sarvey
