Agenda

As part of the April 27, 2017, Business Meeting, the Energy Commission will consider adopting the *Renewables Portfolio Standard (RPS) Eligibility Guidebook, Ninth Edition (Revised)* (Publication No. CEC-300-2016-006-ED9-CMF-REV). The *RPS Eligibility Guidebook, Ninth Edition (Revised)* incorporates non-substantive changes to the *RPS Eligibility Guidebook, Ninth Edition* adopted at the January 25, 2017, Business Meeting to correct typographical errors, update an incomplete URL, remove an obsolete table reference, and remove obsolete formatting codes.

The *RPS Eligibility Guidebook, Ninth Edition (Revised)* is available for review at: <http://www.energy.ca.gov/portfolio/16-RPS-01/documents/> in two versions; a version showing changes in underline/strikeout format relative to the current text of the *RPS Eligibility Guidebook, Ninth Edition* and a clean version. Additionally a summary of the changes has been provided as described in Attachment A.

Background

Under the RPS, the Energy Commission is responsible for certifying eligible renewable energy resources that may be procured by retail sellers of electricity and local publicly owned electric utilities (POUs) to satisfy their RPS requirements, and for developing an accounting system to verify their procurement. The *RPS Eligibility Guidebook* describes the eligibility requirements and processes for certifying renewable resources as RPS eligible and describes how the Energy Commission will track and verify RPS compliance.
