**Subject: Pomona Repower Project, Small Power Plant Exemption Application
Air Quality Modeling Files**

Dear Ms. Dyas:

On behalf of AltaGas Pomona Energy Inc. (AltaGas), we are pleased to provide the enclosed digital video discs (DVDs) containing the air quality modeling files in support of the Small Power Plant Exemption application submitted concurrently herewith for the Pomona Repower Project. The following is a summary of the enclosed DVDs:

- Five DVDs with the modeling files for the Air Quality and Health Risk Assessments; and
- Five DVDs with the modeling files for the Nitrogen Deposition and Construction/Demolition Air Quality, Health Risk Assessment and CalEEMod emission calculations.

We are submitting the above-referenced DVDs because these modeling files are too large to upload to the California Energy Commission's electronic docketing system. Please do not hesitate to contact us if you have any questions or need any additional copies of the DVDs.

Sincerely,

Tom Andrews
