Dec 2016**

Updated document from Dec 23, 2016.

Additional submitted attachment is included below.

OEM Consolidated Comment to CEC VGI Communications Standard Workshop 7 Dec 2016

Represented OEMs:

The represented OEMs include BMW, Daimler, Ford, Lucid Motors, Volvo and Volkswagen Group with its Brands Audi, Porsche and VW:

- 1) fully support the implementation of the international standard ISO/IEC 15118 for AC and DC charging;
- 2) will gradually fit their vehicles with ISO 15118 in the USA;
- 3) are opposing the implementation of SEP 2.0 or any alternative communication standard between the EV and EVSE besides ISO 15118;
- 4) fully support the implementation of an interoperable EV infrastructure, but recommend no California regulatory agency mandate.
