Background

The purpose of this workshop is for the Energy Commission to facilitate a discussion regarding a commercial clothes dryer test procedure and the process of developing a test procedure with stakeholders including manufacturers, trade associations, energy efficiency advocates, and the California Investor Owned Utilities.

On March 14, 2012, the Energy Commission issued an Order Instituting Rulemaking (OIR) to formally begin the process of considering standards, test procedures, labeling requirements, and other efficiency measures for several appliances in a three-phase effort. The first phase of this OIR identified several products including commercial clothes dryers. The Commission requested data and proposals on this product.

On August 3, 2017, the Energy Commission held a public workshop seeking comments from interested parties on the staff analysis regarding commercial clothes dryers and the proposed test procedure.

This workshop expands the collaborative effort with stakeholders in the development and adoption of a commercial clothes dryer test procedure. It is important to the Energy Commission that input from stakeholders be considered throughout this process. Information received through this and subsequent workshops will be used to formulate the commercial clothes dryer test procedure.

For more information, interested parties can visit the pre-rulemaking web page at: <http://www.energy.ca.gov/appliances/2017-AAER-01>.

Public Comment

Oral comments. Staff will accept oral comments during the workshop. Comments may be limited to 5 minutes per speaker. Any comments may become part of the public record in this proceeding.

Written comments. Written comments will be accepted at the workshop; however, the Energy Commission may not have time to review them before the conclusion of the meeting.

Please note that your written and oral comments, attachments, and associated contact information (e.g. your address, phone, email, etc.) become part of the viewable public record. This information may become available via Google, Yahoo, and any other search engines.

The Energy Commission encourages use of its electronic commenting system. Visit the website at <https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=17-AAER-01>. This will take you to the page for adding comments to this docket. Please enter your contact information, any organization name, and a comment title describing the subject of your comments. You may include comments in the box titled "Comment Text" or attach a file in a downloadable, **searchable format** in Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf). Maximum file size is 10 MB.

Written comments may also be submitted by emailing them (include the docket number 17-AAER-01 and Appliance Efficiency Pre-Rulemaking for Commercial Tumble Dryers and Air Filter Labeling in the subject line) to the Docket Unit at:
