Existing language:

140.6(a)3. Lighting wattage excluded. The watts of the following indoor lighting applications may be excluded from actual indoor Lighting Power **Density**.

Proposed language:

140.6(a)3. Lighting wattage excluded. The watts of the following indoor lighting applications may be excluded from actual indoor Lighting Power.

Rationale:

The actual indoor lighting is measured in watts not in watts per square foot, hence "Lighting Power".
