Detailed description: This is a screenshot of a web browser displaying a 3D architectural rendering of a power plant facility. The rendering shows several key structures against a clear blue sky. On the left, a tall, slender transmission pole is labeled 'Transmission Pole 98ft'. To its right is an H-frame structure labeled 'H-Frame 60ft'. Further right is a large, rectangular generator enclosure labeled 'Generator Enclosure 27.5ft'. On the far right, a tall, cylindrical stack is labeled 'Stack 90ft'. The structures are rendered in a realistic style with shadows and textures. The browser interface includes a menu bar at the top, a search bar, and a taskbar at the bottom with various application icons and system information.
