**PETITIONS TO AMEND THE
CARLSBAD ENERGY CENTER
PROJECT**

Docket No. 07-AFC-06C

NOTICE OF COMMITTEE CONFERENCE

PLEASE TAKE NOTICE that the Energy Commission Committee assigned to conduct proceedings on the Petitions to Amend the Carlsbad Energy Center Project (CECP) has scheduled a Committee Conference on:

**Friday, May 1, 2015
Beginning at 1:00 p.m.
Second Floor Conference Room (Fishbowl)
California Energy Commission
1516 Ninth Street
Sacramento, CA 95814
(Map Attached)**

TELECONFERENCE OPTION: Parties and the Public may attend the meetings in person at the above location or by telephone and/or by computer via our "WebEx" web conferencing system. For details on how to participate by WebEx, please see the "Participation through WebEx" directions attached to this Notice.

Background

The CECP was approved by the Energy Commission on May 31, 2012, as a 540-megawatt (MW) natural-gas combined-cycle power generator. It would consist of two power blocks, each having one rapid-response combustion turbine generator (CTG), one heat recovery steam generator (HRSG), one condensing steam turbine generator (STG), an air-cooled fin-fan cooler, and associated support equipment.

Two amendment petitions are pending. The first (Petition to Remove Obsolete Facilities to Support Construction of the Carlsbad Energy Center Project, TN 202267), seeks permission to demolish three above-ground storage tanks - tanks 1 and 2 to the west of the rail corridor, and tank 4 to the south of the approved project boundary. Those tanks would be demolished in addition to tanks 5 – 7 on the approved project site; tanks 5 – 7 were approved for demolition in the 2012 Commission Decision. The second petition

(Petition to Amend Carlsbad Energy Center Project, TNs 202287-1, 202287-2, and 202287-3) would change the project to consist of six simple-cycle turbine generators producing approximately 632 MW. The project site would be expanded to include the storage tank (tank 4) area to the south of the presently approved area, adding seven acres to the approved 23 acre facility. A new administration and control building and a warehouse would be added on the site.

The Committee ordered on September 23, 2014 that both amendments will be considered and processed together (TN 203092).

The engineering and environmental details of the proposed amendments may be viewed at: <http://www.energy.ca.gov/sitingcases/carlsbad/>.

Evidentiary hearings were held in Carlsbad, California on April 1 and 2, 2015. The Committee is currently preparing its Presiding Member's Proposed Decision (PMPD).

Purpose of the Committee Conference

The Committee will conduct the Committee Conference for the primary purpose of deliberating in closed session on the preparation of the PMPD. It may also address any then-pending motions, petitions, and other requests that are ripe for consideration. This is not a continuation of the Evidentiary Hearings; parties and the public are advised not to travel to Sacramento as the public portion of the agenda will be brief—use the WebEx system instead.

As allowed by California Code of Regulations, title 20, section 1208, the public portion of the Committee Conference may be conducted by the Hearing Adviser without either Commissioner being present.

Closed Sessions

The Committee may adjourn into closed session to deliberate pursuant to Government Code section 11126.

Public Participation and Public Adviser

Members of the public are welcome to attend and offer comments at the Committee Conference. It is not necessary to be an intervenor to participate in the public process. Comments may be submitted in writing.
