NAME:	Nick Horres	DATE:	4/20/15
		TIME:	3:30 p.m.
WITH:	San Diego Air Pollution Control District (SDAPCD)		
SUBJECT:	SDAPCD's Revised Final Determination of Compliance (RFDOC)		

On April 20, 2015 I talked with Nick Horres of the San Diego Air Pollution Control District staff regarding a summary of changes in the RFDOC (TN # 204243) which the District filed (via Energy Commission staff, Mike Monasmith) on April 17, 2015, compared to the FDOC (TN # 203924) which the District filed on March 19, 2015. Mr. Horres responded that the changes in the RFDOC were not substantive. He stated that they were primarily corrections of typographical errors in text and tables which did not change any of the analytical conclusions. He also stated that there were some minor clarifications regarding Best Available Control Technology (BACT).

With respect to changes in the conditions in the RFDOC when compared to the FDOC, Mr. Horres referred me to the Energy Commission staff's document (TN # 204222) filed on April 16, 2015, "AIR QUALITY ERRATA AND PROPOSED CONDITIONS OF CERTIFICATION CARLSBAD ENERGY CENTER PROJECT AMENDMENTS" (07-AFC-06C). He stated that this document includes the changes to the District's conditions.
