<hr/>		RE: Publicly Owned Utilities Integrated Resource Planning

Notice to Extend the Comment Period for Two IEPR Staff Webinars:

On May 31, 2017, the California Energy Commission conducted two staff webinars. The first webinar, titled “IEPR Staff Webinar on Light-duty Plug-in Electric Vehicle Calculator Tool for Publicly Owned Utility Integrated Resource Plans,” began at 9:30am and discussed inputs and assumptions in a spreadsheet-based calculator proposed for publicly owned utility (POU) use in estimating the greenhouse gas (GHG) emissions impact of light-duty plug-in electric vehicle deployment assumed in their integrated resource plans (IRP). The second webinar, titled “IEPR Staff Webinar on Standardized Tables and Instructions for Publicly Owned Utility Integrated Resource Plans,” began at 11:00am and discussed the proposed standardized tables for use by specified publicly owned utilities (POUs) for submitting data to the Energy Commission as part of integrated resource plans. These webinars were conducted as part of the *2017 Integrated Energy Policy Report (IEPR)* proceeding. The Sacramento Municipal Utility District requested to extend the comment period for both webinars by one day from June 14, 2017, to June 15, 2017. **The Energy Commission is extending the due date for submitting comments for both webinars to June 15, 2017.**
