**NOTICE OF RECEIPT
PETITION TO AMEND
THE CALIFORNIA ENERGY COMMISSION DECISION FOR THE
MARSH LANDING GENERATING STATION (08-AFC-3C)**

On July 8, 2014, the Facility Owner and Operator NRG Marsh Landing LLC (formerly known as GenOn or Mirant Marsh Landing LLC) (NRG Marsh Landing) filed a petition with the California Energy Commission (Energy Commission) requesting to modify the Final Decision for the Marsh Landing Generating Station (MLGS). The simple-cycle, natural gas-fired, 760-megawatt facility was certified by the Energy Commission in its Decision on August 25, 2010, and began commercial operation on May 1, 2013. The facility is located just north of the City of Antioch, in Contra Costa County, California.

DESCRIPTION OF PROPOSED MODIFICATION

The modifications proposed in the petition would install a diesel backup generator and install a new diesel fire pump engine.

In April 2014, NRG Marsh Landing submitted an application to Bay Area Air Quality Management District (BAAQMD) to permit the emergency diesel engine and the diesel fire pump engine. BAAQMD completed an evaluation of the diesel engines, including a health risk screening analysis, and determined that the addition of these engines will not have a significant effect on the environment. New Air Quality conditions are proposed in the petition to address the operation of these two diesel engines.
