Re: Orange Grove Energy, L.P.'s Withdrawal of Petition for Post Certification Amendment to Address Water Truck Complaints (Docket No. 08-AFC-4C)

Dear Mr. Douglas:

Orange Grove Energy, L.P. ("Orange Grove") hereby withdraws the Petition for Post Certification Amendment to Address Water Truck Complaints filed on May 19, 2014 ("Petition"). Orange Grove had received complaints regarding the use of water trucks to deliver recycled water to the facility. Residents along the water supply route did not like the trucks driving on the roads. In an effort to respond to those complaints Orange Grove searched for a solution. Orange Grove thought using a nearby well with water rights to serve the power plant would resolve the issue.

Unfortunately, proposing to use San Diego Gas and Electric Company's water well has created concerns with another neighbor, the Pala Tribe. Orange Grove does not want to resolve one set of concerns only to create another set of concerns from another neighbor. Thus, Orange Grove is withdrawing this proposal.

We thank the California Energy Commission Staff for their work on the Petition to date. If there are any additional questions regarding the Petition, please do not hesitate to contact me at 916-246-7316.

Sincerely yours,

DAY CARTER & MURPHY LLP

Jane E. Luckhardt
