Bbraun Irvine Concerns

Dear Energy Commission,

As a representative for Bbraun Medical Irvine, I would like to express the concerns related to the report "Winter 2017-18 Technical Assessment" provided by So Cal Gas Company. At the Irvine site we manufacture life saving products that rely heavily on utility generation provided by So Cal Gas Company. In the event that there is an impact to price or availability, this would directly impact our ability to take our critical products to the market. The most recent disasters (Hurricanes) have placed a strain in our product availability and created substantial concerns in regards to product supply.

Raul Garcia

Engineering Systems Manager
