We have 2 teenager boys, 15 & 17 .. they turned off games and laptop , out side they went..they racked leaves and filled the green wast garbage can.. it is a chore for them, just happy to them use the time well.. 😊

My 11 year old daughter and I play board games while snuggled up in blankets by lamp light, or we do homework or read together on the patio when it is warm enough (and light enough) outside. We love ohmhours because it is a reminder to slow down and enjoy our time together.

During #ohmhours my children and I will go play outside if its during the day and nice outside. If its during the evening time we will play games on our tablets, board games, or have a fire in the backyard and roast marshmallows.
