	)	Offshore Wind Energy Gateway

---

## Notice of Webinar on Offshore Renewable Energy: Data Overview and the California Offshore Wind Energy Gateway

The California Energy Commission will conduct a webinar to share data and maps that are being assembled to support renewable energy planning offshore California. The webinar will include a demonstration of the California Offshore Wind Energy Gateway.

The webinar will be held:

**Monday, May 22, 2017**

10:00 a.m. to 12:00 p.m.

Remote Access Available by Computer or Phone via WebEx™  
(Instructions Below)

### Background

On October 7, 2015, Governor Brown signed the Clean Energy and Pollution Reduction Act of 2015 (De Leon, Chapter 47, Statutes of 2015), which requires electric utilities to increase retail sales of qualified renewable energy to at least 50 percent by 2030. In 2016, Senate Bill 32 (Pavley, Chapter 249, Statutes of 2016) put into law a statewide goal to reduce greenhouse gas (GHG) emissions 40 percent below 1990 levels by 2030. To help support the state's long-term GHG reduction goals, the Energy Commission held a workshop<sup>1</sup> as part of the 2016 Integrated Energy Policy Report proceedings to explore the viability, potential, opportunities, and challenges of permitting renewable energy offshore California.

In a May 12, 2016, letter to Department of Interior Secretary Sally Jewell, Governor Brown requested that a federal/state government task force be formed to coordinate state and

federal planning and permitting of offshore renewable energy. The Bureau of Ocean Energy Management (BOEM) - California Intergovernmental Renewable Energy Task Force (Task Force) was created, and the first meeting of the Task Force was co-convened on October 13, 2016.

At the inaugural Task Force meeting, members reviewed BOEM's competitive leasing and planning process and agreed that development of an online data portal for the collection of spatial data and information sets pertinent to offshore wind energy in California would be useful in identifying areas potentially appropriate for offshore wind energy development off the California coast. This webinar will present the initial data sets and maps that are now available on the California Offshore Wind Energy Gateway.

To further the collaboration between the state and federal government, Interior Secretary Sally Jewell and Governor Brown signed a Memorandum of Understanding (MOU) on December 12, 2016, to plan for and implement GHG reduction and renewable energy goals in a cooperative, collaborative, and timely manner. The MOU directs the Task Force to "engage in planning for offshore renewable energy to advance collaborative planning and conservation through data sharing, development and utilization of common data platforms and tools, and proactive stakeholder engagement." The MOU further directs BOEM and the state to "collaborate and engage in a multi-phase process to collect data to inform planning efforts and identify possible areas offshore California that are suitable for potential offshore renewable energy programs" and to use the initial data and information gathered to "identify one or more suitable areas offshore California for BOEM to issue one or more Calls for Information and Nominations regarding wind energy leasing."

## **Agenda**

This webinar will present maps and data sets that have been assembled to support planning processes related to offshore renewable energy in California and demonstrate the California Offshore Wind Energy Gateway (<https://caoffshorewind.databasin.org/>). The California Offshore Wind Energy Gateway is being used to collect and share offshore data. There will be an opportunity for public comment and questions on this new data portal during the webinar.

## **Public Comment**

**Oral Comments:** Oral comments will be accepted during the webinar. Public comments may be limited to three minutes per speaker. Any comments will become part of the public record.

**Written comments:** Written comments should be submitted to the Dockets Unit by **4:00 p.m. on June 5, 2017.**

Please note that your written and oral comments, attachments, and associated contact information (e.g., your address, phone, email, etc.) become part of the viewable public record. This information may become available via Google, Yahoo, and other search engines.

The Energy Commission encourages use of its electronic commenting system. Visit the website at <https://efiling.energy.ca.gov/EComment/ECommentSelectProceeding.aspx>.

This will take you to the page for adding comments to this docket. Please enter your contact information, any organization name, and a comment title describing the subject of your comments. You may include comments in the box titled "Comment Text" or attach a file in a downloadable, **searchable format** in Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf). Maximum file size is 10 MB.

Written comments may also be submitted by e-mailing them (include the docket number 17-MISC-01 and Offshore Renewable Energy in the subject line) to the Docket Unit at:

[docket@energy.ca.gov](mailto:docket@energy.ca.gov)

If you prefer, you may send a paper copy of your comments to:

California Energy Commission  
Docket Unit, MS-4

## **Public Adviser and Other Commission Contacts**

The Energy Commission's Public Adviser's Office provides the public assistance in participating in Energy Commission proceedings. If you would like information on how to participate in this forum, please contact the Public Adviser, Alana Mathews, at [PublicAdviser@energy.ca.gov](mailto:PublicAdviser@energy.ca.gov) or (916) 654-4489 (toll free at (800) 822-6228).

If you have a disability and require assistance to participate, please contact Poneh Jones at [poneh.jones@energy.ca.gov](mailto:poneh.jones@energy.ca.gov) or (916) 654-4425 at least five days in advance of this webinar.

Media inquiries should be sent to the Media and Public Communications Office at [mediaoffice@energy.ca.gov](mailto:mediaoffice@energy.ca.gov) or (916) 654-4989.

If you have questions on the subject matter of this webinar, please contact Scott Flint at [Scott.Flint@energy.ca.gov](mailto:Scott.Flint@energy.ca.gov) or (916) 651-3774.

## **Remote Attendance**

You must participate in this event through WebEx, the Energy Commission's online meeting service. Presentations will appear on your computer screen, and you may listen to audio via your computer or telephone. Please be aware that the webinar may be recorded.

## To join a meeting:

VIA COMPUTER: Go to <https://energy.webex.com> and enter the unique meeting number: **921 250 746**. When prompted, enter your name. This meeting does not have a password.

The “Join Conference” menu will offer you a choice of audio connections:

1. To call into the meeting: Select "I will call in" and follow the on-screen directions.
2. International Attendees: Click on the "Global call-in number" link.
3. To have WebEx call you: Enter your phone number and click "Call Me." If you are on an extension, use option 1, above.
4. To listen over the computer: If you have a broadband connection, and a headset or a computer microphone and speakers, you may use VoIP (Internet audio) by going to the Audio menu, clicking on “Use Computer Headset,” then “Call Using Computer.”

VIA TELEPHONE ONLY (no visual presentation): Call 1-866-469-3239 (toll-free in the U.S. and Canada). When prompted, enter the unique meeting number: **921 250 746**. International callers may select their number from <https://energy.webex.com/energy/globalcallin.php>

VIA MOBILE DEVICES: Access to WebEx meetings is now available from your mobile device. To download an app, go to [www.webex.com/products/web-conferencing/mobile.html](http://www.webex.com/products/web-conferencing/mobile.html).

If you have difficulty joining the meeting, please call the WebEx Technical Support number at 1-866-229-3239.

## Availability of Documents

Documents and presentations for this event will be available online at: [http://www.energy.ca.gov/renewables/offshore\\_energy/](http://www.energy.ca.gov/renewables/offshore_energy/).

Date: May 8, 2017

Listserves: energypolicy, renewable, research, wind, siting, offshoreenergy, environmentalinfoenergyplanning
