To: Roger Mobley
Subject: RE: HECA Wasco Coal Transloading Facility

Thanks for the quick reply Roger. I can appreciate your position. If you could kindly notify us when Savage Coal submits a formal application we would appreciate reviewing the application with your staff at that time.

Thank you again,

Jonathan Fong

Subject: RE: HECA Wasco Coal Transloading Facility

Jonathan we have had some conversations with Savage Coal about amending their CUP but at the present time they have not submitted any application and as such there is nothing to discuss really until they do. The question of the possible CEQA process for us will not be determined until we see an application package. Also until we receive an application I am reluctant to spend staff time on this matter. As such I would prefer to postpone any conversation.

Roger Mobley
Planning Director

Subject: HECA Wasco Coal Transloading Facility

Good afternoon Roger,

I few weeks ago I spoke with you over the phone about the possible Conditional Use Permit amendment for the Savage Coal facility as part of the HECA project.

The Project Manager for the Energy Commission Eric Solorio as well as a few of the senior management staff would like to set up a conference call with you to discuss the permitting process and your anticipated CEQA review of the CUP amendment. As you may know, Energy Commission staff has recently published our Preliminary Staff Assessment of the HECA project and the document is currently being circulated for comment. In advance of public workshops and a business meeting with the Energy Commissioners, our PM would like to speak with you briefly to confirm where you are in the process and ask a few questions.

If you are free, we would like to set up a conference call with you next week either Tuesday 8/20 or Wednesday 8/21. We do not anticipate the call being longer than 45 minutes, but we would like to coordinate with our management staff. If you have availability either of those days, please let us know and I will set up the call on our end.

Thank you very much for your help on this project.
