As part of the June 29, 2006 Business Meeting, the Energy Commission will consider adopting revisions to the *Guidebook* for the Emerging Renewables Program (Guidebook). The previous *Guidebook* was adopted in January 2006. The California Energy Commission's Renewables Committee (Committee) recommends these *Guidebook* revisions pursuant to Public Resources Code section 25747, which authorizes the Energy Commission to adopt substantive changes to the *Guidebook* upon providing ten days written notice. Changes shall take effect once approved by the Energy Commission at a publicly noticed meeting.

The Committee proposes the following changes to the *Guidebook*:

- Effective July 1, 2006, maintain the current rebate level for wind systems to \$2.50/watt for the first 7.5 kW of capacity and \$1.50/watt for incremental capacity above 7.5 kW and less than 30 kW.
- Other changes and updates to provide clarification.

The proposed *Guidebook* changes will be available online June 19, 2006, at [<http://www.energy.ca.gov/renewables/index.html>].

Hard copies of the proposed *Guidebook* revisions may be obtained by contacting Janet Preis by phone at: (916) 654-4524 or by e-mail at: [jpreis@energy.state.ca.us].

Written Comments

The Energy Commission encourages members of the public to submit written comments on the proposed *Guidebook* revisions in advance of the Business Meeting. An original and 21 copies of any comments filed by mail or in person should be provided to the Energy Commission's Docket Unit. Parties may also file a single copy electronically with the Docket Unit and follow up with an original copy by mail. If you are providing written comments at the Business Meeting, please make an additional 50 copies available at the beginning of the meeting.

Please send or deliver written materials to:
