CEC Workshop in Kern County on HECA

Mr. Heiser,

I would like to see the CED schedule a workshop in Kern County at a time that is more friendly to the community most affected by the HECA project decision. We are informed that you are working toward a September workshop, perhaps early October.

As the County Supervisor for the 4th District, where the HECA project would be built, I would like to see the workshop delayed to mid-October. The farmers in the area most affected by the HECA project are dealing with late summer harvest of almonds and other agricultural products. It is perhaps the busiest time of the year for farmers. Please help them by delaying the workshop just a few weeks.

David Couch

Kern County Supervisor
