Buena Vista and CEC meeting- Miller and Lux documents

To: CEC and DOE

From: Trudy Douglass

Docket: 08-AFC-8A

I understand that the Buena Vista Water Storage District will not be able to attend the September workshop. They have asked for a separate opportunity to discuss their issues. Will members of the public be allowed to observe and participate. I believe we must be present to give the process transparency.

My experience of trying to interact with SJVAPCD was anything but transparent. Their process was full of one on ones with HECA and minimal contact with the public. The time and effort put into the study and research on the HECA project by the public made not one bit of difference to their conclusions. Please, make the CEC's procedure more equitable.

Has anyone looked into the original Miller and Lux documents that established the Buena Vista Water District. I believe that they may restrict the water to agriculture use.

Trudy Douglass
