Subject: Updated scheduling information regarding the McLaren Backup Generation Facility
SPPE application review

Staff is currently evaluating the McLaren Backup Generation Facility Small Power Plant Exemption (SPPE) application [17-SPPE-01] and preparing Initial Study sections. As noted in staff's January 26, 2018 scheduling memorandum, staff would provide an update to its proposed schedule once the project applicant provided responses to staff's data requests. Based on the content and timing of those responses staff proposes the attached updated schedule. Staff's current internal schedule envisions a decision on the SPPE application at the May Business Meeting. Attaining that goal assumes no further complications or delays during the analysis and document preparation phase.
