**Present Land Use/Zoning/General Plan Designation:**

**Project Description:** (please use a separate page if necessary)

The project is a proposal for statewide regulations to update the levels of efficiency required for portable electric spas, which are not covered by federal appliance efficiency standards. The required new efficiency standards apply to newly manufactured products and are attainable through normal and existing manufacturing processes. The proposed regulations include modifications to existing appliance marking requirements for battery charger systems, so that they only apply to state-regulated battery chargers instead of applying to both state- and federally regulated battery chargers.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
