California Energy Commission
1516 Ninth St.
Sacramento, CA 95814-5512

Dear Members of the CEC:

I am opposed to the construction and operation of a HECA facility in Kern County. All of us who live in the valley and foothill section are already harmed by the extremely poor air quality here. We already have thousands of diesel trucks coming through, and with the unloading and loading of coal, there will be more toxic particulates in the air we breathe.

I am opposed to our land filled full of slag, the manufacture of fertilizer in our county, and the loss of prime farmland in Kern. I support the local farmers' opposition to this project.

Sincerely,

Lucy G. Clark
