Kay Crosby Comments

Additional submitted attachment is included below.

15 September 2013

California Energy Commission,

When I first read about a proposed power plant, I was disappointed. Kern's wind and solar power is such a positive development; it seems a shame to further pollute this valley.

Disappointment turned into disgust as I read that the power plant idea has changed into a chemical/fertilizer project.

Many children and adults struggle with health issues due to our already polluted air.

Guard the good that is left in our valley. Good health is priceless.

Sincerely,

Kay Marie Crosby
