Background

California runs 840 miles from north to south, contains 482 municipalities, and is home to more than 39.5 million people. Over this breadth of lands, local and regional entities are meeting greenhouse gas reduction goals, adapting to climate change, and providing a safe and resilient community for their residents.

This workshop will discuss and highlight the North Coast's unique challenges, opportunities, goals and solutions to meet the state's climate and energy goals while also becoming more energy resilient.

Agenda

There will be presentations from and discussions with local officials, Native American Tribes, Redwood Coast Energy Authority, PG&E, Department of Navy, Schatz Energy Research Center and Energy Commission staff on the North Coast's energy perspective, energy resiliency, and microgrids, and the potential for offshore wind development.

Information From this Workshop May be Used to Develop Volume 2 of the 2018 IEPR Update

This workshop is noticed under docket number 18-IEPR-02 – California's Energy Policy Leadership which is primarily a repository for information to support the development of Volume 1 of the 2018 IEPR Update. Please note, however, that the information gleaned from this workshop also may be used in the development of, and reflected in, Volume 2 of the 2018 IEPR Update.

Public Comment

Oral Comments: Commissioners will accept oral comments during the workshop. Public comments may be limited to three minutes or less per speaker and to one person per organization. Any comments will become part of the public record in this proceeding.

Written Comments: Written comments should be submitted to the Dockets Unit by **5:00 p.m. on May 4, 2018**. All written comments will become part of the public record of this proceeding.

For the 2018 IEPR Update, the Energy Commission is using an electronic commenting system. Visit the website at
