Notice of Joint Agency Workshop on Energy Reliability in Southern California

The California Energy Commission, the California Public Utilities Commission (CPUC), the California Independent System Operator (California ISO), and Los Angeles Department of Water and Power (LADWP) will jointly hold a workshop to discuss energy reliability in Southern California. The workshop is being conducted as part of the *2018 Integrated Energy Policy Report (IEPR) Update* proceeding.

The Chair of the Energy Commission, Robert B. Weisenmiller, will conduct the workshop jointly with the CPUC, California ISO, and LADWP. Other Commissioners at the Energy Commission and the CPUC may also attend and participate in the workshop. A quorum of Commissioners from the CPUC and/or the Energy Commission may be in attendance, but no votes will be taken.

Tuesday, May 8, 2018

10:00 a.m.

South Coast Air Quality Management District
 21865 Copley Drive Auditorium
 Diamond Bar, CA 91765
 (Wheelchair Accessible)

Remote Access Available by Computer or Phone via WebEx™
 For details, go to www.energy.ca.gov/webcast.

Background

A primary responsibility of California’s energy agencies is to maintain the reliability of the state’s energy system, including electricity and gas. A reliable energy supply supports a well-functioning economy, whereas disruptions have the potential to put public health and safety at risk, and to cause negative economic consequences to businesses and economic activity.

Southern California has suffered two major disruptions to its energy infrastructure in recent years that have required rapid, sustained, and coordinated response by state and local agencies, balancing authorities, utilities, and others to maintain energy reliability. Southern California’s electricity system was first challenged by the unexpected shutdown of the San Onofre Nuclear Generating Station (San Onofre) in 2012, which was later compounded by the planned closure of several natural gas plants. More recently, natural gas pipeline outages along with the massive leak

from the Aliso Canyon natural gas storage facility in late 2015 have created a major disruption and strained the supply of natural gas particularly for meeting winter heating needs and summer electricity generation for air conditioning, among others. As part of the *2017 IEPR*, the joint agencies developed action plans to address energy reliability in the summer and winter of 2017, extending into 2018. Both situations require ongoing work to ensure near-term reliability of California's energy system and will be addressed at this workshop.

The Energy Commission is addressing these issues as part of the *2018 IEPR Update*, consistent with the scoping order for the report.¹ Discussion of the role of gas storage facilities and natural gas infrastructure in the state's long-term greenhouse gas reduction strategies and climate change goals is not a topic of this workshop. Those issues, and the long-term use of the Aliso Canyon natural gas storage facility, will be addressed in the CPUC Order Instituting Investigation (I.17-02-002).

Agenda

The agenda includes staff presentations on Southern California reliability issue updates and tracking progress on conventional generation, preferred resources, transmission upgrades, and contingency mitigation measures from the Energy Commission, the California ISO, LADWP, Southern California Edison, and San Diego Gas and Electric. Following these will be a joint-agency presentation on reliability issues associated with natural gas pipeline outages and the constrained operations at the Aliso Canyon natural gas storage facility, and mitigation measures to address those issues. This presentation will be given by representatives from the Energy Commission, CPUC, California ISO, LADWP, and Aspen Environmental. After a break for lunch, Southern California Gas will present its assessment and actions being taken to address energy reliability. The final item on the agenda is a panel discussion with key stakeholders on ongoing reliability issues and mitigation measures. There will be an opportunity for public comment at the end of the day.

A detailed schedule will be posted prior to the workshop at http://www.energy.ca.gov/2018_energypolicy/.

Public Comment

Oral Comments: Oral comments will be accepted during the workshop. Public comments may be limited to three minutes or less per speaker and to one person per organization. Any comments will become part of the public record in this proceeding.

Written Comments: Written comments should be submitted to the Dockets Unit by **5:00 p.m. on May 22, 2018**. All written comments will become part of the public record of this proceeding.

For the *2018 IEPR Update*, the Energy Commission is using an electronic commenting system. Visit the website at http://www.energy.ca.gov/2018_energypolicy/ and click on the "**Submit e-Comment**" link in the "Proceeding Information" box. From the drop down menu, select the appropriate docket number. For this workshop, select docket **18-IEPR-03 – Southern California Energy Reliability**.

¹ http://docketpublic.energy.ca.gov/PublicDocuments/18-IEPR-01/TN223004_20180320T095751_2018_IEPR_Update_Scoping_Order.pdf

This will take you to the page for adding comments to that docket. Enter your contact information and comment title. Under “subject(s),” select “**18-IEPR-03**” and “**IEPR Public Comments.**” You may include comments in the box titled “Comment Text” or attach a file with your comments. Attached comments must be in a Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf) formatted file.

The Energy Commission encourages use of its electronic commenting system, but written comments may be emailed to the Dockets Office, or submitted by U.S. Mail to:

California Energy Commission
Dockets Office, MS-4
Re: Docket No. 18-IEPR-03
1516 Ninth Street
Sacramento, CA 95814-5512

If you choose not to use the electronic filing system, please include the appropriate docket number on any emailed or written comments. Comments may be emailed to docket@energy.ca.gov and copy the technical lead, Lana Wong, by email at [lane.wong@energy.ca.gov].

Please note that your electronic, emailed, written and oral comments, attachments, and associated contact information (for example, address, phone, and email) become part of the viewable public record. Additionally, this information may become available via Google, Yahoo, and other search engines.

Public Adviser and Other Commission Contacts

The Energy Commission’s Public Adviser’s Office provides the public assistance in participating in Energy Commission proceedings. If you want information on how to participate in this forum, please contact the Public Adviser, Alana Mathews, by email at PublicAdviser@energy.ca.gov or (916) 654-4489, or toll free at (800) 822-6228.

If you have a disability and require assistance to participate, please contact Poneh Jones by email at poneh.jones@energy.ca.gov or (916) 654-4425 at least five days in advance.

Media inquiries should be sent to the Media and Public Communications Office by email at mediaoffice@energy.ca.gov or (916) 654-4989.

If you have questions on the technical subject matter of this meeting, please contact Lana Wong at lane.wong@energy.ca.gov. For general questions regarding the IEPR proceeding, please contact Heather Raitt, IEPR program manager, by email at heather.raitt@energy.ca.gov or (916) 654-4735.

The service list for the *2018 IEPR Update* is electronic. Notices and documents for this proceeding are posted to the Energy Commission website at http://www.energy.ca.gov/2018_energypolicy/.

When new information is posted, an email will be sent to those on the energy policy email listserv. We encourage those who are interested in receiving these notices to sign up for the listserv through the website at <http://www.energy.ca.gov/listservers/index.html>.

The listserv is titled “energypolicy.”

Remote Attendance

You may participate in this meeting through WebEx, the Energy Commission's online meeting service. Presentations will appear on your computer screen, and you may listen to the audio via your computer or telephone. Please be aware that the meeting will be recorded.

To join the online event:

VIA COMPUTER [CLICK HERE](#) to join the online event.

Or copy and paste the following link to a browser:

<https://energy.webex.com/energy/onstage/g.php?MTID=e62ab417f5af60942e1867c5081a9e7ed>
Event Number: 927 488 720

Click "Join Now." The "Join Now" menu will offer you a choice of audio connections:

1. To call into the meeting: Select "I will call in" and follow the on-screen directions.
2. International Attendees: Click on the "Global call-in number" link.
3. To have WebEx call you: Enter your phone number and click "Call Me."
4. To listen over the computer: If you have a broadband connection, and a headset or a computer microphone and speakers, you may use VoIP (Internet audio) by going to the Audio menu, clicking on "Use Computer Headset," then "Call Using Computer."

VIA TELEPHONE ONLY (no visual presentation): Call (866) 469-3239 (toll-free in the U.S. and Canada). When prompted, enter the unique meeting number: **927 488 720**. International callers may select their number from <https://energy.webex.com/energy/globalcallin.php>.

VIA MOBILE ACCESS: Access to WebEx meetings is now available from your mobile device. To download an app, go to www.webex.com/overview/mobile-meetings.html.

If you have difficulty joining the meeting, please call the WebEx Technical Support number at (866) 229-3239.

Availability of Documents

Energy Commission documents and presentations for this meeting will be available online at http://www.energy.ca.gov/2018_energypolicy/.
