## **Aliso Canyon**

Aliso Canyon is the only gas storage facility with crude oil in wells from the previous land owner Getty Oil. Crude oil is a mixture of 5 Thousand compounds w/ different properties mixing together with fracked gas from all over US and SoCalGas's Toxic proprietary chemicals creating a Health Crisis in the San Fernando Valley. People, including children, the elderly and pets are suffering the consequences of this facilities constant leaks, spills, regular maintenance venting, and fugitive migration. Over 50 toxic pollutants According to the AQMD Toxic Pollutants (Pounds per year) Annual Emissions Report are spewed into the air we breathe bringing disease, cancer clusters, and pain to the families and to the children that play at recess and lunch every day in the shadow of this dangerous facility. Castlebay Lane Elementary and has had eight teachers die and recently the school nurse passed from cancer from cumulative exposure to these chemicals. My house lines up with Castlebay my father passed from kidney cancer one of the many cases on my block. We are not safe! We are looking to you for help!
