## **HECA Support Letter**

State officials,

I would like to take the time as a community member of Kern County to express my whole hearted support for HECA. This is an incredible project that is going to not only benefit our community but set standards nationwide on what it means to be clean and efficient when making energy. I think it is great that we have the opportunity to be at the forefront of this technological industry using tested ways of making clean energy while stimulating our local economy. This is why I am submitting my written request that you permit this project. I sincerely think it is a safe and healthy endeavor that is going to greatly benefit this county, thank you.
