Support this project

Energy Commission,

I am writing to express my support for the Hydrogen Energy California project. I think this project is an excellent idea that entails many qualities that lead me to this conclusion. Its already been approved by numerous safety and health authorities, It is a clean energy production, and it is bringing thousands of Jobs to Kern County. In the economic hardships we are in I don't understand why we would want to block a project that is clearly safe and good for the community. I urge you to permit this project and help our community thrive in a productive manner.
