Subject: RE: HECA Traffic Questions

Hi Warren,

I am part of a team reviewing the proposed Hydrogen Energy California (HECA) project. Specifically, I am analyzing potential traffic and transportation issues / impacts associated with implementing the proposed project. To date we have received comments from Kern County related to conditions of certification (i.e., mitigation measures) that the Energy Commission is recommending to reduce or eliminate potential impacts of the proposed project. We appreciate the County's comments. However, the Energy Commission has not received or seen any comments from Kern County specifically related to the proposed truck route (SR 43 south from Wasco to Stockdale Highway west, then south on Morris Road and west on Station Road). So, we are specifically asking:

Does Kern County have any comment(s) related to the applicant's proposed truck route?

Does Kern County recommend any alternate route(s) or road(s) be used for trucks other than what is proposed by the applicant?

I appreciate your time and assistance and look forward to hearing back from you.

Subject: RE: HECA Traffic Questions

Hi John; I am in and out today - but if you have questions specific to Traffic, please contact Warren Maxwell of our Roads Department at MaxwellW@co.kern.ca.us.

Thank you,
Jacqui

Hi Jacqui,

Sorry about that, I will ask what the issue is today. However, I will be in the office all day today, so please feel free to call me again whenever is convenient for you. Thanks
