## **Opposition to HECA Application**

I am a resident of Bakersfield California and am very much concerned about the health effects of the proposed HECA in the Buttonwillow area. The possibility seems very large that the huge amount of coal brought into Kern County daily for the HECA project will have a detrimental effect on Kern County air.

I am very sensitive to particulates in the air and suffer from frequent respiratory and sinus congestion. I dread the prospect of a huge new project, that has doubtful benefits to the citizens of Kern County, being undertaken.
