Re: Comments on the Draft Environmental Impact Statement for the Hydrogen Energy California Project, EIS-0431

California Energy Commissioners and Staff:

Thank you for the opportunity to submit comments on the Draft Environmental Impact Statement ("EIS") for the Hydrogen Energy California ("HECA") coal gasification power/fertilizer plant project, located near Buttonwillow in Kern County.

Paramount Farming Company ("Paramount") and its related entities farm and process almonds, pistachios, pomegranates and citrus in Kern County.

Paramount is concerned about the potential air quality, water quality and supply, and traffic impacts associated with the HECA project, and encourages the California Energy Commission ("Commission"), in its consideration and review of this project to look carefully and thoroughly at these issues and adopt all feasible mitigation to minimize the impacts on local residents and the community. In addition, Paramount supports the mitigation measures recommended for by the Kern County Board of Supervisors in its August 8, 2013 letter to the Commission.

Thank you in advance for your consideration of these comments.

Sincerely,

William D. Phillimore  
Executive Vice President
