**1,000+ residents IN SUPPORT of HECA**

*Additional submitted attachment is included below.*

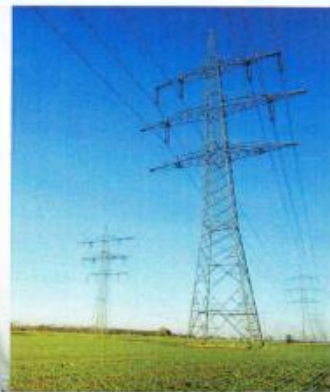

Dear California Energy Commission and U.S. Department of Energy,

My name is Janel Garcia and I was responsible for coordinating Hydrogen Energy California's community outreach efforts. My team and I traveled throughout Kern County, educating the community and answering questions about the project in English and Spanish. Through these efforts, we found that this project has many supporters, especially in Western Kern County.

We collected a total of 1,021 support cards for HECA and have included an excel list with each supporter's information. I have also attached two photocopies of a support card in English and another in Spanish.

Thank you.

I support clean energy production in Kern County

hydrogen energy  
california

YES!

I support the proposed Hydrogen Energy California project in western Kern County. The project will directly benefit the county, state, and nation by increasing domestic oil production while providing enormous economic stimulus through new jobs and services. On a larger scale, the project will pave the path to alternative energy production and will continue to make progress toward controlling global climate change. You may list my name publicly as a supporter of the Hydrogen Energy California project.

GET INVOLVED!

- I would like to write a letter of support.
- I will attend a public hearing.
- You may use my contact information to keep me informed on the new Hydrogen Energy California project.

## Yo apoyo la producción de energía limpia en el Condado de Kern

hydrogen energy  
california

¡SI!

Yo apoyo el propuesto Proyecto de Energía de Hidrógeno California en el oeste del Condado de Kern. El proyecto beneficiara directamente al condado, estado y nación al aumentar la producción de petróleo domestico mientras que proporcionara un enorme estímulo económico por empleos nuevos y servicios. En una escala más grande, el proyecto allanará el camino a la producción de energía alternativa y continuara haciendo progreso hacia el control del cambio climático mundial. Pueden incluir mi nombre en la lista pública como alguien quien apoya el proyecto Energía de Hidrógeno California.
