NAME:	Lisa Worrall, CEC Planner II	DATE: Feb. 12 & 13, 2014	TIME: various
WITH:	Fred Busch, Sr. VP Group Business Developer, Savage Services		
SUBJECT:	Number of employees currently at the Wasco Coal Terminal		

I emailed Mr. Fred Busch, Sr. VP Group Business Developer with Savage Services about the number of current employees at the Wasco Coal Terminal. Below are the emails sent between Energy Commission staff and Mr. Busch.

**From:** Worrall, Lisa@Energy [Lisa.Worrall@energy.ca.gov]  
**Sent:** Wednesday, February 12, 2014 4:43 PM  
**To:** Fred Busch  
**Cc:** Heiser, John@Energy  
**Subject:** Number of employees currently at the Wasco Coal Terminal  
Good afternoon Mr. Bush,

I got your contact information from John Heiser, the project manager at the California Energy Commission for the HECA project.

I need to get an update of the number of people employed at the Wasco Coal Terminal. The most recent information I have says that there are four employees as of 2012.

Thanks for your help,

Lisa Worrall

Good Morning Lisa....

I was traveling yesterday and didn't pick your message until last evening.

## REPORT OF CONVERSATION Page 2 of 3

2012 was a transitional period for the terminal as our full year customer transitioned to a seasonal power supply operation, so we used a average count for 2012 in our report.

The average # of full time terminal and truck employees for that year were as follows:

2 System Operators  
1 Truck Mechanic  
1 Supervisor/Lead Driver

We did not include office staff or management in that number.  
Our 2013 staff was similar and we plan the same for 2014.  
If you have any further questions, please feel free to contact me.

Thanks

Fred

Good morning Fred,

I have a few follow up questions. Does the office staff and management work at the coal facility or are they employed at an off-site location? If they work at the coal facility, how many office and management staff work there?

Thanks,

Lisa Worrall

Lisa....

In 2012, there was one General Manager and one office coordinator, in addition to the average staff of 4 employees, I provided.

If we were to include the office staff and management in our post project staffing, there would be one General Manager, two office coordinators and one Maintenance Manager in addition to the 66 total full time employees that we provided a breakdown for in our December 20, 2013 response to question A244. So the total projected site team would be 70.

Does that help?

Fred
