February 18, 2014

To Whom It May Concern:

This letter is intended to make known to any and all interested parties that the Board of Trustees of the Elk Hills School District voted on March 11, 2014 to fully support the building of the hydrogen energy plant in the Tupman area as proposed HECA.

Where as the new plant will bring new potential jobs at different levels to the area;

Where as the new employees of the plant may select Elk Hills School District as a district of choice for the education of their own children;

Where as the new plant will add to the tax base of the school district;

Where as HECA has expressed the desire to build a strong partnership with the school and has already demonstrated this through grant funding for our new science, math, and technology program;

Therefore, the Board looks forward to a long and beneficial partnership with HECA as we endeavor to provide the finest education for Elk Hills School District students.

Sincerely,

Billy Elliott
Board President
