Status Report for HECA Neighbors  
Hydrogen Energy CA 08 AFC 8A  
April 10, 2014

HECA Neighbors participated Feb, March, and April in the Wasco hearings for the expansion of the Savage Coal terminal. The expansion is specifically needed to address HECA's coal. We continue to believe that Wasco acted against the own CUP in allowing the expansion without environmental review. We also submitted written comments to Wasco's planning commission prior to their second hearing on this issue. Although the planning director assisted us in getting our comments out of their junk mail and through their electronic maze of dead ends, ultimately, they refused to accept them for the second hearing.

We were pleased that the Wasco City Council was not unanimous in approving the expansion. Some of the members listened to the comments from the public. They preferred to wait until the CEC had done their environmental review before making a premature decision.

Respectfully submitted

Chris Romanini  
HECA Neighbors
