Re: HECA 08-AFC-8A

To Whom It May Concern:

Please don't allow the proposed HECA plant to be built in Kern County.

Kern County is already plagued with the worst air in the nation. We certainly do not need and cannot tolerate the 500 tons of new emissions from this HECA plant, not to mention the coal particulate which will escape from the coal shipments. Kern County is being devastated by the current drought. The HECA plant will divert even more of our precious water, depriving farmers, residents and, ultimately, consumers of produce. The small amount of energy contemplated to be produced and the promised (though not guaranteed) jobs does not justify the threat to our air, our water, our roads and our farms.

Please do not permit the HECA plant in the Buttonwillow area of Kern County!

Sincerely,

A handwritten signature in black ink that reads "Olga Lampkin". The signature is fluid and cursive, with the first name "Olga" being larger and more prominent than the last name "Lampkin".
