Docket No. 08-AFC-9C

The Application for Amendment for the
Palmdale Energy Project

City of Lancaster's status report #1

I. Discovery

On October 20, 2015, the City of Lancaster filed its first set of data requests in this matter. The City's requests focused on air quality and greenhouse gas emissions. Summit Energy provided responses on November 5, 2015.

The City anticipates submitting a second set of data requests asking additional questions about the company's BACT analysis and criteria pollutant offset strategy. In addition, the City has questions about transmission and the pending interconnection study.

II. Data Response Workshops

The City of Lancaster believes technical workshops are a productive way to quickly and informally resolve outstanding issues. Unfortunately the City is unable to attend the December 17, 2015 workshop due to a longstanding scheduling conflict. We trust staff will check with the City prior to scheduling future workshops so that all parties can attend and benefit from this opportunity.

III. Schedule

The City of Lancaster will aim to submit its second set of data requests upon review of the AVAQMD PDOC.

Dated: December 11, 2015

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Gloria D. Smith". The signature is fluid and cursive, with the first name "Gloria" being more prominent than the last name "Smith".
