Subject: Palmdale Schedule

Hearing Officer Celli, Kevin Bell, and Eric Veerkamp:

Palmdale Energy LLC is hereby requesting that the dates to file Opening Testimony, Rebuttal Testimony, PreHearing Conference Statements and the PreHearing Conference be delayed to a time to be determined later. The reason for the delay is that during the preparation of our testimony we discovered an error in some of the data that was supplied concerning the Air Cooled Condenser. As Staff may recall, we provided data from a vendor earlier this year, to support the ACC thermal plume modeling. We are working with multiple vendors to refine data that was used in the ACC thermal plume modeling effort conducted by Palmdale Energy, LLC and Staff. In order to make sure that the record is accurate, we will need some time to validate vendor data and may need to resubmit a new ACC thermal plume modeling report. Therefore, we believe that before the Committee hears the case and testimony is filed, we may need a Staff workshop to discuss the data and we certainly believe Staff will need some time to review any new submittals. Therefore, we request that the current schedule for the filing of Opening Testimony, Rebuttal Testimony and PreHearing Conference Statements be rescheduled at a time after our efforts are concluded. We further request that a PreHearing Conference not be scheduled at this time. We propose to continue filing Status Reports on the 15th of the month to inform the Committee of progress and to inform the Committee when the parties are ready to file testimony and resume the normal prehearing activities.

Kevin and Eric,

Please respond if you agree to the delay and I will docket the email chain for the record. Thank you.
