Docketed Date:	4/20/2017

Memorandum

To: All Parties to the Palmdale Energy Project (PEP) Amendment Proceedings (08-AFC-09C)

Date: **April 20, 2017**

From: **Kenneth Celli, Hearing Officer**

California Energy Commission

1516 Ninth Street
Sacramento CA 95814-5512

Subject: Incomplete, extraneous and erroneous material in the Compendium of Conditions

In reviewing the Compendium of Conditions (TN 216834), I have found that it does not contain conditions of certification for Compliance & Closure, Transmission Line Safety and Nuisance, Greenhouse Gases, or Public Health. These are the sections that I have identified as missing so far; others may also have been excluded. Also, the Compendium contains a Plume Velocity Analysis by Nancy Fletcher that should not be included with the conditions. Finally, there remain numerous strikethrough words or phrases without replacements that must be corrected.

The purpose of publishing the conditions of certification in a separate Appendix is to eliminate the need to cross-check between the PHPP and PEP Decisions when referencing a condition. The PEP's Appendix A should be a complete and current compilation of all conditions binding on the PEP.

The Committee directs Staff and Petitioner to confer regarding the changes needed to correct the Compendium of Conditions and to docket a complete and corrected Compendium of Conditions as soon as possible.
